

2015 CrossFit Liftoff, Powered by Rogue, Competition Rulebook

The 2015 CrossFit Liftoff Competition Rulebook is the intended benchmark for the CrossFit Liftoff Competition (the “Liftoff”) and any CrossFit Inc. supported, sanctioned or sponsored competitions included in the Liftoff.

1. THE CROSSFIT LIFTOFF

The CrossFit Liftoff consists of a 1-rep-max snatch, a 1-rep-max clean and jerk and a timed workout. The 2015 CrossFit Liftoff will begin on Thursday, Nov. 5, 2015, at 5 p.m. PT, with the release of the CrossFit workout. All athletes will have until Monday, Nov. 9, at 5 p.m. PT, to submit their scores for the three workouts.

Athletes will complete the three workouts, have their results validated and be ranked on the CrossFit Liftoff Leaderboard. An athlete's score will be determined by combining their snatch and clean and jerk total in pounds with their total number of repetitions completed in the timed workout. Each athlete's score will be ranked against other athletes' scores in the same division. The athlete with the highest total score will be the winner for their division. There will also be rankings based on weight classes (listed below) in each division.

2. DIVISIONS AND WEIGHT CLASSES

Athletes will have the option to compete in the following divisions:

- **Teenage Division:** Restricted to athletes 14-17 years of age as of July 15 of the current season.
- **Masters Division:** Restricted to athletes 40 years of age and older as of July 15 of the current season.
- **Open Division:** open to all athletes, with no age restrictions.

The Open Division will include the following weight classes (body weight in pounds):

- **Men:** 135/150/165/180/195/210/225/226+
- **Women:** 110/120/130/140/150/160/170/171+

Weigh-In Protocol:

Athletes must record their body weight for each Liftoff workout. Body weights will be submitted, along with scores, for validation. **Body weights are to be recorded in whole pounds only (no decimals).** For example, if an athlete weighs in at 165.7 lb., their weight will be recorded as 165.

- If the workout is conducted at an affiliate, the athlete's judge will observe the weigh-in and record the athlete's body weight on the scorecard.
- For video submissions, **follow this procedure:**
 1. Shoes, weight belts, and knee sleeves may be removed prior to recording body weight.
 2. Place the scale on a hard, even surface.
 3. Zoom in on the scale to show that the scale, whether digital or analog, is set to zero. For a digital scale, tap it so it turns on and sets to 0, then let the scale turn off.
 4. Keeping the scale in the frame, zoom out so that both the athlete and scale are completely visible. With the entire athlete and scale visible in the frame, have the athlete stand on the scale. With the athlete standing on the scale, the videographer then moves in close to the scale so that the numbers can be clearly seen on the video.
 5. Review the video to make sure that the lift, weight used and body weight were properly recorded (and all numbers were clearly viewable on video).

This procedure may be done before or after the workout, depending on the athlete's preference. Edited or cut videos will not be accepted.

3. REGISTRATION

All athletes competing in the Liff-off must validly register online at games.crossfit.com/liff-off through a CrossFit ID account. The athlete's CrossFit ID account will be the primary conduit for the athlete to receive notifications relevant to this competition. It is the athlete's sole responsibility to provide current and valid information, including an email address.

In order to register, athletes must first create a CrossFit ID account or login to their existing account on the CrossFit Games website. Once logged in, athletes will:

- A. select the CrossFit affiliate under whose name they want to compete OR select to compete as an unaffiliated athlete;
- B. select a weight class

The registration price for all athletes is US\$10.

All payments are final. No refunds or transfers will be permitted.

4. THE WORKOUT FORMAT

Important competition dates and workout details will be announced at games.crossfit.com/liff-off. The specific workout format will be released by CrossFit Inc. and communicated to all athletes online. In addition, videos demonstrating the workout format and movement standards will be posted at games.crossfit.com/liff-off.

The workout format will include the following details:

- A. Required movements, including starting and ending ranges of the movement, prohibited technique(s), accessories and/or equipment (if any), and any adjustments by division.
- B. Required number of repetitions and/or repetition scheme.
- C. Required equipment. **NOTE: Athletes should have access to a video camera, digital clock, tape measure, standard Olympic-style barbell and plates, Concept2 rower, 20-lb. and 14-lb. medicine balls, pull-up bar, gymnastic rings, jump rope and other equipment commonly found in a CrossFit affiliate.** CrossFit Inc. will not supply or make available any necessary equipment, and it is the athlete's sole responsibility to secure any equipment necessary to validly perform a workout.
- D. Required amount of weight in pounds. (If kilogram plates are used, athletes will need to use appropriate combinations of plates to achieve the correct poundage). For the purpose of CrossFit competitions, 15-kg barbells will be considered to be 35 lb., and 20-kg barbells will be considered to be 45 lb. Collars used to hold weight plates on the bar will NOT be included in the total weight.
- E. Time domain or time limit.
- F. Scoring method.
- G. Filming and submission guidelines.

5. SCORE VALIDATION

Validation is required to make any Lifting workout result official. Athletes must have their scores validated either by an affiliate manager at a CrossFit affiliate or by uploading video of the workouts to the [CrossFit Lifting website](#).

Each athlete is responsible for performing the workouts as stipulated in the workout descriptions. This includes performing all required movements to the described standard, counting and completing all required reps, using the required equipment and loads, and meeting all score and video submission requirements.

Workouts validated at an affiliate: Only valid CrossFit affiliates in good standing (as determined by CrossFit Inc.) have the ability to officially validate non-video scores. To opt-in to validate scores, affiliate managers must pass the Online Judges Course available at <https://oc.CrossFit.com>, commit to upholding the standards and spirit of the event, and assert they have the equipment, facility and judges to administer the workout.

Each athlete must use a judge during a workout. Judges are responsible for enforcing the movement standards and confirming the athlete's score. Any infraction to the movement standards or range of motion will result in the loss of repetition(s). Judges onsite will also confirm the athlete's body weight.

Workouts validated online: If no CrossFit affiliate is available, the only option is to submit video of the workouts. Athletes submitting videos will record their weigh-in as part of the video submission (see procedure described above).

It is the sole responsibility of the **athlete** to ensure the timely and successful submission of videos for each Lifting workout. Submissions that are incomplete will not be accepted. Any athlete whose video submission may be delayed due to issues with uploading videos must send an email to liftoffsupport@crossfit.com notifying support staff of these difficulties. Support staff must receive this email notification PRIOR to the workout submission deadline. Once the competition closes at 5 p.m. PT on Monday, athletes will not be able to adjust or resubmit any score.

NOTE: All athletes are expected to record and keep video of each workout. Any athlete ranked in the top 25 on the Lifting Leaderboard in the Open and Masters divisions will be required to submit video. Video of any workout may be requested from any athlete competing in the Lifting. Failure to provide video may result in a reduction in score or the removal of the score entirely for that workout.

Invalidation of any online scoring submission is the sole right of CrossFit Inc. Scores from video submissions may be invalidated or adjusted without warning and after the close of the competition. Reasons for invalidation include, but are not limited to, violations of the workout format, miscounting reps, athlete attire that obscures judging, improper camera angles or poor quality video submissions. Frequently, score modifications stem from violations of the movement standards or the use of an uncommon movement. All athletes should be familiar with the **Uncommon Movement Clause** from the CrossFit Games Rulebook as it applies to judging in the Lifting:

"Any movement deemed uncommon, out of the ordinary or used to amend, shorten or change the accepted movement standard or range of motion, including line of action of any movement, will be disallowed."

On very rare occasions, physical limitations in range of motion (caused by prior physical defects or permanent injuries that are obvious and clearly definable by demonstration) brought to the attention of a judge or CrossFit Inc. prior to the beginning of the competition may result in an exception to the required movement standards, in CrossFit Inc.'s sole discretion. These cases will be handled on an individual basis.

6. THE LEADERBOARD

Games.CrossFit.com and the Liftoff website will host the only official Leaderboard for the Liftoff. Athletes will be ranked on the Liftoff Leaderboard relative to other athletes in their division based on their performances across all three workouts. At the end of the Liftoff, the athlete with the highest total on the Liftoff Leaderboard (in their division) is the champion for that division. The Leaderboard will also display rankings for each weight class.

If an athlete performs a workout at an affiliate, the score will appear on the Leaderboard after the score has been validated. If an athlete elects to use video submission for score validation, the entered score will appear on the Leaderboard with the video linked to the score upon submission. Scores posted by video submission may be validated, invalidated or amended at any time.

If an athlete does not enter a score, has a workout invalidated or cannot complete a stated minimum score or work requirement in a workout, they will be ranked on the Leaderboard below any athlete who has completed more workouts.

Ties on the Liftoff Leaderboard will be broken by awarding the higher position to the individual that has the best result in any single Liftoff workout. If athletes are still tied, the process continues to their next best single workout result, and so forth until a winner is determined. Ties will not be broken for single workout results. More than one athlete can share a workout result and all will earn the original point value.

7. APPEALS

All Liftoff appeals, scoring discrepancies, or questions about the submission of scores must be immediately addressed either in person or by email to the affiliate where the workout was performed. If affiliate personnel are unavailable or the appeal is made concerning a video submission, all pertinent facts must be emailed to liftoffsupport@crossfit.com immediately.

Only affected athletes may appeal a result. **Coaches, managers or non-related parties may not appeal on behalf of another.**

Athletes may not appeal their own performance based on the judging, scoring or performance of another athlete.

Judgment calls made by CrossFit Inc. are final and are not subject to change or modification.

CrossFit Inc. has final authority on all appeal or protest rulings.
